Nagpur, India · +91-9325063591 · shivamingale3@gmail.com · [LinkedIn](#) · [GitHub](#)

SUMMARY

Full-stack Engineer experienced in building production-grade systems across React, Next.js, Node.js, and Spring Boot. Delivered cloud-ready solutions on AWS/GCP, optimized system performance, and shipped features used by real clients. Strong ownership mindset — handle architecture, implementation, and delivery end-to-end.

SKILLS

Languages: JavaScript, TypeScript, Java

Frontend: React.js, Next.js, Material UI, ShadCN

Backend: Node.js, Express.js, Spring Boot

Databases: PostgreSQL, MongoDB, MySQL

Cloud & Tools: AWS (S3, EC2, Amplify, Cognito), GCP, Git, Docker, Linux, REST APIs

EXPERIENCE

Software Engineer — Leadows Technologies Pvt. Ltd, Nagpur (Sept 2024 – Present)

- Architected and built large-file (10GB+) direct upload pipeline to **AWS S3** using **React + AWS SDK**, eliminating backend load and cutting transfer cost by **~30%**. Developed solar analytics dashboard in **Next.js (TypeScript + ShadCN)**, delivering real-time insights using OCR-extracted utility bill data. Engineered ERP modules (**Asset Management, HR, Operations**) with **React + Spring Boot + PostgreSQL 17**, automating internal workflows and reducing manual work across teams. Worked closely with designers, product teams, and clients to ship features on strict timelines.

Trainee Software Engineer — Leadows Technologies Pvt. Ltd (Jul 2024 – Sept 2024)

- Contributed to full-stack components across multiple client platforms. Built internal tools and APIs using React, Node.js, and Spring Boot. Strengthened fundamentals in clean code, Git workflows, and scalable backend patterns.

PROJECTS

Ek-City – Social Media Platform (React, Node.js, PostgreSQL)

- Built a city-focused platform delivering real-time, verified updates from officials. Gained traction from local government groups in Nagpur.

Category Management App (Flutter, Firebase, Java Spring Boot, PostgreSQL)

- Developed a cross-platform organizer for documents, tasks, and media. Implemented end-to-end encryption for secure data handling.

Biotech Analysis Platform (React (Vite + TypeScript), AWS S3, AWS Cognito, AWS Amplify)

- Designed a system enabling direct multi-GB file uploads without backend involvement. Improved throughput and significantly reduced server costs.

Solar Analytics Dashboard (Next.js, TypeScript, ShadCN)

- Created interactive dashboards for analyzing solar plant efficiency. Integrated OCR-based bill parsing to compute real-time insights.

Company ERP System (React, Spring Boot, PostgreSQL)

- Implemented core modules to improve operational automation. Enhanced data integrity and system performance through optimized APIs.

LEADERSHIP & ACTIVITIES

- **Coding Pillar — Tech Titans Coding Club:** Organized hackathons, mentored juniors, and taught Linux fundamentals.
- **Junior Placement Coordinator — D.Y. Patil:** Assisted with campus recruitment operations and student readiness.

EDUCATION

Master of Computer Applications (MCA)

D. Y. Patil Institute of Management & Research, Pune

2022 – 2024 | CGPA: 7.5
